

York World Naked Bike Ride

10th York World Naked Bike Ride | 21st June 2015 | Depart 16:30 | Millennium Bridge

The **World Naked Bike Ride** is an annual protest which takes place in York and over 70 cities worldwide.

We ride to **protest** against the insanity of fossil fuel culture and to **celebrate** the beauty of bicycles and the ordinary bodies which power them.

We also ride to **protest** against our roads being dominated by the danger and pollution of the motor car and to **celebrate** the most eco-friendly alternative, the bicycle.

This year's 7.6 mile ride is largely city-centre based and agreed by the North Yorkshire Police. Riders paint slogans on their bodies, decorate their bikes and create a cheerful atmosphere as they pass through the crowded ancient streets. The ride is expected to take around 90 minutes.

Why not come and join us? All you need is a body and a bike. Ride as bare as you dare!

For full details, including timings of wrap-around events on the day, check us out online:
