World Naked Bike Ride

Sat June 14, 2008

Ride starts around 1pm

Sick of the obscene amount of pollution and traffic mayhem we face every day from cars?

On June 14th, join thousands of people in over 70 cities around the world. Experience the naked joy of the world's largest nude protest against oil dependency and car culture.

Help stop indecent exposure to auto exhaust and celebrate the power and individuality of our bodies!

This is Toronto's 5th ride. Bring your family and friends! And as always, go as bare as you dare. Free sunblock!

We face traffic with our naked bodies as the best way to defend our dignity and expose the dangers faced by cyclists and pedestrians.
